

CHILDREN AGAIN WILL BE FEATURE

Horse Show Committee Plans
More Elaborately.

Souvenirs for All Participants and
Prizes Worth Working for
Are Offered.

TO MEET MONDAY AFTERNOON

All acknowledge the Children's part of last season's Horse Show to have been one of the most charming features of the entire successful show and it is proposed by the children's committee of this season to enlarge and make this feature even more beautiful if possible, than last year.

The committee appreciated assistance of the mothers, who worked with such beautiful results in the exquisitely decorated carts of last year. The Horse Show association wishes to announce that there will be given to each child taking part in the floral parade, this year a handsome individual prize. There will also be premiums offered for the best boy and girl driver and the best couple. First and second premium for the prettiest decorated cart.

The judges will be selected according to the rules and regulations of such affairs, consisting of three non-residents of Paducah.

The committee has decided to do away with the musical drills as it was found to interfere with the children's school work last year.

All boys and girls wishing to enter the contest for best boy and girl rider are requested to meet the children's committee Monday afternoon at 4:30 o'clock at Wallace park.

ONE CENT PER MILE
Via The Lookout Mountain-Battlefield Route
N. C. & ST. L. RY.
\$6.80 Chattanooga and Return \$6.30

Torture by Savages.

"Speaking of the torture to which some of the savage tribes in the Philippines subject their captives, reminds me of the intense suffering I endured for three months from inflammation of the kidneys," says W. M. Sherman, of Cushing, Me. "Nothing helped me until I tried Electric Bitters three bottles of which completely cured me." Cures Liver Complaint, Dyspepsia, Blood Disorders and Malaria; and restores the weak and nervous to robust health. Guaranteed by all druggists. Price 50c.

IF IT'S A REPUTATION
You are after White's Cream Vermifuge has a world-wide reputation as the best of all worm destroyers, and for its tonic influence on weak and unthrifty children. It improves their digestion and assimilation of their food, strengthens their nervous system and restores them to health and vigor natural to a child. If you want a healthy, happy child get a bottle of White's Cream Vermifuge. Sold by all druggists.

People who live in glass houses should have a care to keep their thoughts crystalline.

LAY IN YOUR COAL

If you place your order with us you will be able to cackle with satisfaction, too, when cold weather comes. We can send you nice bundled kindling right along with your coal. Order now.

MAKING PATTERN FOR BIG ENGINES

Paducah Shops Doing Work
For Illinois Central.

Nashville, Chattanooga & St. Louis
Stockholders Meet Today and
Will Make Change.

GENERAL RAILROAD NOTES.

Because of the expert workmanship in the pattern department of the Paducah Illinois Central shops, the first assignment of patterns for the biggest type of passenger engines on the Illinois Central was received this morning and local pattern makers are busy making them, the order being "rush."

The biggest type of engine now used by the road is the 1025 class, the Pacific type. Two drivers over 6 feet in diameter are supplied with these engines, but the new type, which is not yet delivered, will be of the 1035 class. They will be larger and more powerful than the 1025 class and the idea of the road in getting patterns for the delicate parts is to preclude the possibility of a delay in breakage. The road wants to prepare for all emergencies and will have patterns for all parts made before the engines are placed in service.

It is not known whether any of the monsters will be sent to this division, but it is said they will. The assignment is a large one and the engines are to be distributed where needed most. The importance of the Louisville division has secured the biggest type of freight engine and the biggest passenger engine to make the fast time between Louisville and New Orleans would be a natural development.

Mr. Pete McHugh, special agent for the Memphis division of the Illinois Central, was in Paducah yesterday on business.

I. C. Laundry.

Chicago, Ill., Sept. 12.—The Illinois Central will soon provide a novel adjunct for its already adequate equipment by the installation of a modern laundry at Fourteenth street and the yards, where all the linen used on the 4,375 miles of this system will be washed. Up to this time only part of the linen has been washed in Chicago while much has been cared for at the various terminals.

The average number of pieces of laundry every month will be 188,000, divided as follows: Napkins, 90,000; tablecloths, 30,000; aprons, 10,000; jackets, 6,000; towels, 50,000; cooks' caps, table cloths, sheets, slips and miscellaneous, 2,000.

Stockholders' Annual Meeting.

The annual meeting of the stockholders of the Nashville, Chattanooga & St. Louis railway will be held in the office of Secretary Ambrose at Nashville today. Fifteen directors are to be elected at the meeting, and if President Thomas is quoted correctly by the Chattanooga papers a change will be made in the board, as he has promised Chattanooga representation on the board.

Rescue of a Merchant.

A prominent merchant of Shongou, N. Y., J. A. Johnson, says: "Several years ago I contracted a cough which grew worse, until I was hardly able to move around. I coughed constantly and nothing relieved my terrible suffering until I tried Dr. King's New Discovery. Before I had taken half a bottle my cough was much better and in a short time I was entirely cured. I surely believe it saved my life. It will always be my family remedy for colds." Fully guaranteed; 50c and \$1.00 at all druggists. Trial bottle free.

AN OUNCE OF PREVENTION

Is worth a pound of cure. There are many poor sufferers, consumptives who are hopeless of getting well—who, if they had taken care of themselves, would now be well. A cough is the foundation of Consumption. Ballard's Horehound Syrup will cure that cough. Mrs. S., Great Falls, Mont., writes: "I have used Ballard's Horehound Syrup in my family for years—my children never suffer with coughs." Sold by all druggists.

A Scientific Wonder.

The cures that stand to its credit make Bucklen's Arnica Salve a scientific wonder. It cured E. R. Mulford, lecturer for the Patrons of Husbandry, Waynesboro, Pa., of a distressing case of Piles. It heals the worst Burns, Sores, Blisters, Ulcers, Cuts, Wounds, Chilblains and Salt Rheum. Only 25c at all druggists.

GENERAL ROBERT E. LEE
Was the greatest general the world has ever known. Ballard's Snow Liniment is the greatest Liniment. Quick. It cures all pains. It is within the reach of all. T. H. Pointer, Hempstead, Texas, writes: "This is to certify that Ballard's Snow Liniment has been used in my household for years and has been found to be an excellent Liniment for Rheumatic pains. I am never without it." Sold by all druggists.

Chances to Spend Vs Chances to Save

The first are always with you. The second are with you only while you are earning good wages. The chances to spend will be no account to you later in life if you do not use your chances to save now. Start an account at once with \$1.00 and get a per cent. interest.

SOLD BY ALLEY & LEST AND W. C. KOLB, PADUCAH, KY.

A Mosquito Brief.
The American Mosquito Extermination society, says the Scientific American, has recently published a brief on the subject of mosquitoes which is worth repeating on account of the practical condensed information given. The card is illustrated with the various phases of the generation of mosquito as well as of the common and fever-producing species. It states:

1. There are over one hundred species of mosquitoes in the United States.
2. Mosquitoes breed only in water. They may breed in any kind of quiet water unstocked with destroying fish.
3. Mosquitoes generally require from one to three weeks to develop from eggs to winged insects in warm weather; longer in cold weather. Some female mosquitoes three days old lay eggs; the average is greater. Some species lay as many as three or four hundred eggs at once, some lay them singly. Mosquitoes may live several months (as shown by hibernation and otherwise), but probably few live over a month.
4. Mosquitoes do not breed in grass, but rank growths of weeds or grass may conceal small breeding puddles, and from a favorite hibernating place for adults. The pitcher plant holds sufficient water to breed a rare and small species.
5. Different species of mosquitoes have as well defined habits as different kinds of birds, flies, etc. Some are domestic some wild, some migratory.
6. Most domestic mosquitoes breed in fresh water, fly short distances, and habitually enter houses.
7. Most migratory mosquitoes breed in salt and brackish marsh areas, and fly long distances. They are not conveyors of malaria.
8. Rigid tests, both direct and eliminative, have proved that certain species of mosquitoes are the only known natural means of transmitting malaria and yellow fever. Some other diseases are known to be conveyed by mosquitoes.
9. Of the domestic varieties, the dangerous malarial mosquitoes (several species of the genus Anopheles) are among the most generally distributed. They seem never to travel far, only a few hundred yards.
10. A most common and dangerous domestic mosquito in the south and the tropics is stegomyia fasciata, which is the natural conveyor of yellow fever.
11. Mosquitoes are known to bite more than once, as can be seen by ob-

servation and is proved by the transmission of disease from an infected person to a new subject.

12. Mosquitoes are a needless and dangerous pest. Their propagation can be largely prevented by such methods of drainage or filling of wet areas, removal, emptying or screening of water receptacles, spraying standing water with oil where other remedies are impracticable. Attention should be paid to cisterns, house vases, cesspools, road basins, sewers, watering troughs, roof gutters, old tin cans, holes in trees, marshes, swamps and puddles. As malarial mosquitoes may be bred in clear springs the edges of such places should be kept clean, and they should be stocked with small fish. The breeding and protection of insectivorous birds, such as swallows and martins, should be encouraged. Thorough screening of houses and cisterns is necessary to prevent the spread of malaria or yellow fever. The continued breeding of any kind of mosquitoes, with the attendant menace to public health and to the life and comfort of man and beast, is therefore the result of ignorance or neglect.

A Lively Tussle.

With that old enemy of the race, Constipation, often ends in Appendicitis. To avoid all serious trouble with Stomach, Liver and Bowels, take Dr. King's New Life Pills. They perfectly regulate these organs, without pain or discomfort, 25c at all druggists.

SHE FOUND RELIEF.

If you are troubled with liver complaint and have not received help read this: Mrs. Mary E. Hammond, Moody, Texas: "I was in poor health—liver trouble—for over a year. Doctors did me no good and I tried Herbine, and three bottles cured me. I can't say too much for Herbine, as it is a wonderful liver medicine. I always have it in the house. Publish where you wish." Sold by all druggists.
